REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claims 1 and 2 have been carefully considered. The references of the record, such as Yashohara (6,512,343), fail to teach or suggest an F/V converter for converting the frequency of the FG signal into DC voltage and selecting means for selecting the first hall amplifier when output voltage of the F/V converter is equal to or more than a preset threshold voltage, selecting the second hall amplifier when the output voltage of the F/V converter is less than the preset threshold voltage, and a PWM comparator for producing a power-on pattern for switching the driving of the DC motor by comparing the output voltage of the first hall amplifier or the second hall amplifier selected by the selecting means with a reference triangular wave for PWM modulation as required by claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

DRAWINGS

2. The drawings are objected to because figures 4 and 5 are not labeled "Prior Art" as required under 37 CFR 1.83. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary

to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either " Replacement Sheet" or " New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.
